USB 2.0 A Male - A Female Extension Cable

Details correct on: 03/12/2014

Notification	
Product Code	CDLSB-904
Short Description	USB 2.0 extension cable A male - A female, 5mtr
Full Description	The USB 2.0 active extension cable can be used to extend the cable legth of any USB 2.0 device. The extension acts as a transparent hub and buffers all upstream and downstream traffic. This is to ensure that the signal meets the electrical and timing specifications. Using passive extension cables can result in timing errors and data loss.
Extra Information	**Specification:** USB 2.0 specification Extends up to 5 metres Plug n Play Bus powered Type A male to A female
